Total, 132 against 178 for the previous year; a decrease of 46.

REMARKS.

But little encouragement can be drawn from the vital statistics of Natick for 1891.

It is clearly apparent that we have taken a sharp turn in the direction of a decline in material prosperity.

This might be accidental and would not create apprehension if the prospect for the immediate future were enlivened by any substantial evidences of a revival of business.

The chances are that our population at the present writing is little, if any, in excess of the figures for 1885 and must diminish steadily as long as the depression in the labor interest continues. It will, therefore, be the part of prudent citizens at the Annual Meeting to exercise care and judgment in making our grants and appropriations conform to our altered circumstances.

LICENSES.

Two licenses to sell intoxicating liquors, 6th Class, have been granted by the Selectmen. The following named druggists were the recipients: Frank B. Twitchell, James E. Cooper.

DOGS.

Whole number of dogs licensed up to Dec. 1, 1891, 646.

Number for corresponding period previous year, 655 ; a decrease of 9.

The Clerk has turned over to the County Treasurer \$1354.80, which amount (less about 10 per cent.) will be refunded to the town.

CONCLUSION.

Although the present Clerk has stated in open meeting, two years in succession, the reasons for establishing his salary (and that of the other town officers) at the figures to be found in the report, still, as there seems to be some affected misunderstanding and not a little exaggeration prevalent in certain quarters, it is considered well to subjoin the following detailed statement of the items which make up the total income of the office of Town Clerk of Natick for 1891 :

Recording mortgages, assignments, etc.,	\$ 45 00
Marriage certificates,	35 00
Recording and returning Births, Marriages and Deaths,	
(net)	116 00
Licensing dogs, (net)	125 00
Salary,	500 00
	<hr/>
	\$821 00
To this should be added the sum received by the Town	
Clerk as Registrar of Voters and Clerk of Board,	100 00
	<hr/>
	\$921 00
And from this should be deducted the amount paid by	
Clerk for rent, gas, etc., of office devoted to use	
of town and keeping of Town safe,	85 00
	<hr/>
	\$836 00

There are two ways of managing the office of Town Clerk. The first is to treat it as a secondary consideration, a sort of appendage to be attended to, occasionally, at odd moments, as the pressure of other business may permit.

Under this system as usually carried on, with a merely nominal salary of \$100, and the exacting of small fees for every trivial service or assistance, the net income might still exceed the amount given above. In fact, the probabilities are strong in that direction since it is well known that the Town Clerk's office is the resort of all sorts of persons looking for information concerning the various departments of the town, consulting records, etc., etc.

But it is plain that this system must involve a great deal of absenteeism, irregularity and disappointment to the general public.

The second method is entirely different. As there is no officer whose presence, when wanted, is more imperatively demanded (for recording instruments, issuing certificates, etc.,) the present clerk considered it a better way to treat the office as of primary importance, not merely incidental to some other calling, and has persuaded the town to grant a fairly liberal salary which, with the legal fees above enumerated, would afford a decent compensation for faithful attention to the duties of the office. How the system adopted during my term of service has worked will be illustrated below. In passing it will suffice to say that there has been an earnest effort to make the office of genuine accommodation to the public; no pains have been spared to facilitate every reasonable inquiry coming to my notice and to render all possible assistance to parties (and their name is legion) having business connected with the various records of this town. At the same time, there has been an almost complete abolition of those annoying "fees" and "perquisites" such as 25 or 50 cents for helping to look up a matter, filling out certificates in pension cases, taking affidavits in town affairs and numberless things of the like. The intent has been to make the salary suffice for all such extras and to hinder as little as possible the free, regular

and convenient use of the office by the citizens.

So that, the amount above set forth, \$836, may fairly represent the income of the office during each of the past two years. In the other three and one-half years of my incumbency it was much less, as the salary was at lower figures.

Now, as a companion picture to the foregoing, let us see how this matter of salary is presented in another aspect. The financial accounts of Town Clerks relate principally to dog licenses. The last full year before my service was 1885. The amount received in that year for dog licenses was \$839. Let us now, in tabular form, compare with that sum the amounts received in the five succeeding years and in parallel column note the salary of the Clerk and see what is the result :

1885.	Dog Money, \$839.	
1886.		
Dog Money.	Gain.	Salary (half year).
\$973.	\$134.	\$50.
1887.		
\$1156.	\$317.	\$100
1888.		
\$1211.	\$372.	\$150
1889.		
\$1394.	\$555.	\$200.
1890.		
\$1404.	\$565.	\$500
1891.		
\$1354.	\$515.	\$500
	<hr/>	<hr/>
	\$2,458.	\$1,500

Subtracting from the above salary figures the rent, etc., of office for five and one-half years at say \$80 per year we have (\$1500—\$440) \$1060, so that the true result is

Gains, \$2458. Salary, \$1060.

In other words by taking the difference between these final results it will be seen that the town has made in clean money, during my time of service, about \$1400, over and above the total sum rendered to me as salary. Indeed, the said \$1400 profit

would go very far toward offsetting the gross amount earned by the Clerk in same period for the other items enumerated near the beginning of this article, so it is a fair conclusion that as a matter of actual expenditure the services of the present Town Clerk have cost the town little or nothing. And if further proof be needed it will readily be gleaned from the present and former appropriations for the Morse Institute to which the dog money is applied ; whereas, formerly the grant was \$1000 and the dog money, the past year it was \$600 with the dog money and the latter grant means far more funds wherewith to increase the usefulness of the library.

The above figures will no doubt astonish many voters, but as they are compiled from the records, returns and receipts from the County Treasurer their correctness cannot be questioned. It may be objected that the same gratifying results might have occurred under any other auspices. My answer is, we are not dealing with "might have beens" but with facts as they exist. The gain in population during the past five years is a little over 8 per cent. How, on that basis, comes it that the gain in dog money in the same period should be over 60 per cent? The year selected for comparison, 1885, is the one least favorable to me. For several years previous to that, the income from dogs remained nearly stationary between seven and eight hundred dollars and a comparison with any one of them or with an average made up from their aggregate would only set forth in a more glaring manner the enormous increase in later years. Towards the close of each season the officers have rendered efficient service in driving in the laggards but, as a matter of fact, the prosecutions are fewer of late years than formerly. What, then, is the reason?

For myself, I can see no cause for wandering all through the region of conjecture and fiction to hunt up a pretext for withholding credit justly due to any one unless, possibly, the persons so occupied are already "located" in said region endeavoring to discover faults which only exist in their imagination. The truth is that the Clerk has adopted the second of the two methods of managing the office alluded to above.

He has considered the duties of prime importance and, in that spirit, has attended to the business with all the care and energy at his command.

Believing that the interests of the town in any department committed to him should receive the same close oversight as his private concerns, he has acted throughout on that principle with the result in a financial sense as pointed out above. As to the clerical part of his duties it will be better for others to speak or, rather, the records will speak for themselves. While he can readily admit, as a theory that any other Clerk, adhering to the same rule, might perform the duties of the office in all respects perhaps better, still he feels as yet under no constraint to concede that theory as a proved fact.

As if to illustrate still further the principle on which he manages town affairs it so happened that, during the past year, the Clerk as a member of the School Board, was allowed, practically, the control of the money appropriated for that important department in the manner heretofore practised of leaving said duties, in great measure, to the Chairman of the Board. And, although it is a matter of simple observation that about three times more repairing of houses has been effected the past year than usual in any one year and despite the fact that a change in system of supervision with the extra expense involved was adopted by the town, and while the schools have been liberally supplied with every conceivable requirement, it will be gratifying news to the voters to learn that we are coming out of the year well inside the appropriation. See School Report.

I shall expect to be entertained by the variety of theories (other than the true one) about to be evolved to explain away that extraordinary fact.

Matters of this kind is unusual in Town Reports, at least in Natick. Its necessity, this year, is forced upon me by the peculiar nature of the attack on the Town Clerk. As an official, or otherwise, I should personally expect and welcome the closest scrutiny even by unfriendly eyes into the minutest details of my accounts or proceedings. Such scrutiny, fairly conducted even

when prompted by malice, is a useful thing under any form of government and, as may easily be gathered from the foregoing statements, I have good reason to be one of the last to object. But I have not been aware that any such investigation was going on or contemplated. Certainly no one has been through my books with that end in view.

Nearly all the items of debit and credit appear annually in the printed reports of Town officers but as one set is usually stated incorrectly in the attacks and gossip and the other ignored altogether I am at a greater loss to account for the whole proceeding.

It strikes me that the proper time and way to "pitch into" the matter of salaries was in open meeting on either or both of the occasions when the subject was under discussion. But we must deal with such affairs as we find them. I am only too well aware that charges against any public official, however improbable and baseless, especially if disseminated in print, are very hard to overcome by any amount of the truth. Therefore, realizing that great damage may accrue to me personally from such charges and sensible that this may be the last time that I shall address the citizens in my present capacity I have felt free to present the whole case in its true light.

My only regret is that in doing so I have been compelled to institute any comparisons but it is thought that I shall be justified therein by the nature of the attacks and the fact that thus only could I be enabled (from the peculiar circumstances of the case) to make out my complete defence.

Perhaps I make too much of this matter, but it often seems to me that town officers in general are subjected to an undue amount of dishonorable criticism; this is very apt to degenerate into positive injustice whenever, as in the case in hand, a little inquiry would satisfy the most prejudiced that such criticism was totally, and even ludicrously, at variance with the true state of affairs.

Respectfully submitted,

JAMES McMANUS,
Town Clerk.

SELECTMEN'S REPORT.

To the Taxpayers and Citizens of Natick:

The Selectmen respectfully submit their report for the year ending March 1, 1892.

PROPERTY OWNED BY THE TOWN.

SCHOOLS—District No. 1, house and land.

“	“	2,	“	“	“
“	“	3,	“	“	“

REMARKS.

In presenting this report the Selectmen do not feel called upon to make extended remarks, but present a simple statement of the year's work with only such explanations as seem necessary •

* * * *

The past year has been in some respects an unfortunate one as regards the prosperity of the town. The closing of a few shops and a comparatively small amount of business which has been done in others, has largely reduced the income of a great number of our citizens, and many have had to apply to the town for temporary aid, which has caused an excess in this direction. It has been the aim of this Board in all of the work which has been performed by the town on the roads or otherwise, to favor the men with families and those who needed the work most.

* * * *

In regard to Union street there was a balance left over from last year of \$621.63, but in order to finish the work already begun and put the street in a good condition, we had to expend much more than that, which has caused an increase in the amount expended on the roads under the regular appropriation. There have been numerous claims brought before this board for damages on account of a change of grade or location on Union street, some of which have been settled wholly or in part. Others we could not agree upon and the claims are still held against the town.

* * * *

The Town appropriated four thousand dollars for regravelling and widening West Central street under the order of the County Commissioners. By petitioning that Honorable Board for a re-opening of the case, we obtained a modification of the order which reduced the expenses perhaps one-half, and also an award from the County of two thousand dollars, one thousand of which has already been paid and the other will be as soon as the work is completed, for which we would recommend an additional

appropriation of \$1500 which we think will be sufficient to put the road in good shape according to the order of the County Commissioners. The amount already expended is \$7141.37.

* * * *

This includes the work done in cutting the hill on West Central street near the junction of Cemetery street which was not in the order of the County Commissioners, but which the town had voted to do but had made no appropriations for. As something had to be done with the surface water near the house of Chas. W. Johnson we deemed it best to do this work rather than be to some temporary expense which would be all lost in a year or two at the most or involve the town in a law suit. In filling the hollow beyond the hill some damage has been claimed by property owners from a change of grade. As no agreement has been arrived at between them and this Board we leave the matter with the town.

* * * *

The Town appropriated two thousand eight hundred dollars for the expense of the bridges over the Boston & Albany Railroad, at Speen and Mill streets, of which nearly the whole amount has been expended as the town's portion of the expense of the bridges and the approaches thereto. The claims for damages by adjoining property owners has in no case been settled as yet, none of the claimants having accepted our award of damages.

* * * *

The Railroad Company have also built a bridge at Boden Lane crossing against the remonstrance of this Board and the business men of the town. The Commissioners did, however, reduce the amount to be paid by the town to seven and one-half per cent. of the whole expense. There will be need of an appropriation for this bridge and also for the land damages for all three. The Railroad Company have also filed with us a notice of a petition for a change of grade at Bacon street or Lake Crossing.

* * * *

The franchise which was last year granted to the Natick

Electric Railway Company, after being modified and extended in time, has been built upon from So. Natick to the junction of Pond and Speen streets with the prospect of its early completion to South Framingham.

* * * *

The work which was begun last year of preserving and classifying the town records has been carried forward this year as we believe to completion at an expense of about two hundred and twenty-five dollars. We deemed the work necessary in order to preserve the records of births, marriages and deaths and have them in a convenient form for reference.

* * * *

The appropriation for lighting streets of \$4000 was divided by vote of the town; \$2500 for electric lighting and \$1500 for gas lights. As regards this if we had attempted to use \$1500 for gas we should have been under the necessity of putting in a lot more gas lamps and posts which has to be done at the expense of the town. As there was no money appropriated for this purpose the only thing we could do was to use what gas lamps we had and put the remainder into electric lights under the same terms as last year. We have changed several of the Arc lights, getting four incandescent lights in place of each Arc light which has given much better satisfaction, and we would recommend that all of the Arc lights be replaced by incandescents unless in a public square; and also that the next Board make a new contract with the Electric and Gas Companies based on the number of lights and the time they are burning.

ANNUAL REPORT
OF THE
BOARD OF WATER COMMISSIONERS
AND
SUPERINTENDENT OF WATER WORKS
OF THE
TOWN OF NATICK.
FOR THE
YEAR ENDING FEBRUARY 28, 1892.

NATICK, MASS.
NATICK CITIZEN PRINT,
1892.

REPORT OF WATER BOARD.

Your Commissioners beg leave to submit the following report :

At the beginning of the year we organized with Francis Bigelow as Chairman and Charles B. Felch as Clerk.

The Town Treasurer's report will give full statement of the receipts for water rates, fines and summonses.

As early as the season would permit the reservoir was completed, we trust in a manner satisfactory to the town. The amount paid out has been large, but the work to be accomplished was difficult, and we know that it will not need any more repairs during our lifetime.

The Superintendent's report will give full account of repairs and expenditures.

We have constructed a dam across the mouth of the South arm of Pegan Brook, causing, except in very heavy rains, all water to a certain extent to be filtered before entering the pond. We believe it has been largely beneficial in purifying the water, and we believe that we stand far higher in purity of water supply than we did a year ago.

We have also cleaned out and thinned out the Park, cutting all the wood below the low water mark, allowing citizens to cut for the wood under the direction of the Superintendent.

We would call the attention of the town to the fact, that according to the plan of the Town Park and the water supply, that a small portion of the Catholic cemetery is laid out upon the Town lands.

We think it better to arrange this matter before any part belonging to the Town is occupied.

FRANCIS BIGELOW,	} Water Board.

Report of Superintendent.

To the Water Board:

GENTLEMEN—I herewith present the eighteenth annual report of the Natick Water Works for the year ending February 29th, 1892.

There was very little extension of main pipe during the last year, there being only about seventeen hundred feet of 4 and 6 inch laid. The repairs on the reservoir were completed last summer, and it is now in condition to hold seventeen feet of water, three feet more than before.

There were thirty-eight applications for service in the last twelve months.

The Engineer's report shows all to be in good working order at the Pumping Station. He has pumped over fifteen million gallons more than usual the past year, which excess must be accounted for by consumers leaving faucets and hose running when not in use.

The shores of the pond were cleared of all brush and rubbish, and a dam built near the entrance of Pegan brook to stop the flow of the brook in its direct course to the Pumping Station, which has already proved of great benefit. This work should be done early every year to help in preserving the purity of the water supply.

The appropriation made for the Town Park has been expended in accordance with your orders, and the Board of Selectmen have paid over the amount, as is shown below. In order to get the shore thoroughly cleared I have let parties cut the wood as far as high water mark, and they have taken the brush and wood in payment.

August, '91, 112 hours labor at $22\frac{1}{4}$ c. per hour,	\$24 92

PUMPING STATION.

The following table will give you all the necessary information with regard to coal used, water pumped, and duty of the pumps, which latter is less than last year. It is accounted for by the coal used being of poorer quality, even worse than the previous year. In order to show as good a duty as other pumping stations of the same grade, the coal used must be of the best quality, and the same as samples furnished when the contract is made :

Yours respectfully,

J. W. MORSE, Superintendent.

ENGINEERS' REPORT OF FIRE DEPARTMENT.

GENTLEMEN :—We herewith submit the annual report of the Natick Fire Department for the year ending January 31st, 1892.

All the apparatus in service at present is in good order with the exception of the hose carriage at So. Natick which is in such poor condition that it will either have to be rebuilt or exchanged. The board of engineers have made a contract with J. D. Macewen to build a wagon, such as those in the Central Fire Station, and have drawn an order for the balance of the sum appropriated for the Department in part payment for the same. Old Eagle Steamer is still housed in the shed, in rear of Central Fire Station.

The Hose we have on hand will probably be sufficient for another year, unless something unforeseen at present occurs ; but we still believe that some new hose should be purchased every year in order to guard against accidents.

FIRE ALARM SERVICE.

Three new boxes have been put in during the last year (making twelve in all), and a gong has been placed in the pumping station. In consequence of the Boston & Albany R. R. having ordered all wires down, except those over crossings, we have been obliged to rebuild about half a mile. The So. Natick line will have to be rebuilt this coming year on account of the mixed condition of the wires of the Electric R. R. which, if not attended

to, will probably cause trouble, and we would recommend that the line be carried through Little South by Eliot, Everett, Rockland and So. Main streets. Nearly all the necessary poles are set, except about one mile and a half of the distance. ¶We also recommend that some one man be appointed to locate all poles and see that they are properly set, and to cause all those not in use to be removed, and to see that the interest of the town is properly looked after.

The Department has responded to twenty-three alarms during the last year, viz.: seventeen in buildings, four in woods, twice for assistance out of town, one fire where no alarm was given with the following result:

NUMBER OF FIRES AND ALARMS IN THE YEAR 1891.

Feb.	7	James A. Smith store,	Partial loss
Feb.	22	James Brennan house,	Partial loss
March	14	Thomas Barlow shop,	Total loss
March	27	Corkery estate house,	Partial loss
April	7	Isaac B. Clark's block,	Damage slight
April	8	John J. Walker hotel,	Total loss
April	16	Sportsmen's building,	Total loss
April	27	J. E. Sweetland hen house,	Damage slight
April	30	Robinson & Jones' coal shed,	No damage
May	1	Fire in the woods.	
May	8	Fire in the woods.	
May	15	Call for assistance from Wellesley.	
May	18	James Hall house (no alarm)	Total loss
May	19	Brush fire.	
June	2	Ocean House,	Partial loss
Ang.	5	Michael Ormand,	Damage slight
Aug.	21	Geo. W. Campbell barn and shed,	Partial loss
Sept.	13	Soren C. K. Bohm house,	Partial loss
Sept.	20	W. A. Bird, wood,	Partial loss
Nov.	1	Fire in the woods.	
Nov.	28	J. L. Cobb house,	Partial loss
Dec.	13	Mary E. Fennessy house,	Partial loss

Dec. 17	Wilson House,	Damage slight
Dec. 19	Call for assistance from Needham.

REUBEN HUNTING,		
GEO. E. DUNTON,		
J. W. NORRIS,		

REPORT OF THE TOWN PHYSICIAN.

To the Overseers of the Poor:

I herewith present my annual report for the year ending March 1st, 1892.

We have had an unusual amount of sickness among all classes and conditions during the year just past. This has been largely due to the epidemic that has been so prevalent in nearly all parts of the Commonwealth; and thus while it has taxed the economic energies of your physician, I know full well it has the more heavily embarrassed your Board in your persistent efforts to keep within the bounds of the appropriations.

I have made up to March 1st, 365 house calls, of which 48 visits were made to the Poor Farm, and have received 149 office patients.

While there has been so much sickness outside, the health of the inmates at the Farm has been uniformly good, much better, generally, than any previous year. One death has occurred among them. John McGlone entered the house the afternoon of January 29th, suffering severely with pleuro-pneumonia, and died January 31st. The health, comfort, neatness and general home-like spirit that pervades the house can be traced directly to the kind, motherly and almost matchless matron, Mrs. Hayes, of whom every inmate speaks in the highest terms.

The mortality among those dependent upon your favor has been three, viz.: Mrs. Pope, uremia, Mrs. M. J. Moore, consumption, and John McGlone, pleuro-pneumonia.

I again desire to thank you for the many pleasant relations you have suffered to exist between us. If it has not lessened the duties of my position, it has assuredly lightened them.

WM. RICHARDS, M. D.

REPORT OF THE BOARD OF HEALTH.

The duties of the Board of Health vary little, year by year, and consist mostly in attending to the isolation of contagious diseases, investigating complaints and removing nuisances of a greater or less degree. This year the labors of the Board have differed little from that of its predecessors. We have received many complaints of alleged nuisances, have investigated all of them and in most cases have found that they were well grounded in fact. The aggregate number of visits we have made is large, and in the discharge of our duties we have been called into all parts of the town.

The only work of any magnitude undertaken has been the cleaning out of the South Arm of Pegan Brook as far as Union Street, in accordance with the vote of the town. This was done under the survey and supervision of W. W. Wight, and the expense was as follows :

W. H. Chamberlain, contract,	\$170 00
W. H. Chamberlain, re-laying bridge,	7 00
W. W. Wight,	14 50
Printing, advertising for bids,	1 25
James A. Jordan, labor,	3 00
	<hr/>
	\$195 75
Appropriation,	250 00
Underdrawn,	54 25

The necessity of a purer water supply is more than ever evident, as our Dug Pond water has been very disagreeable to use for domestic purposes, if not injurious to health. Quite a large number of citizens are solving the question by buying their drinking water of those who supply "pure spring water," thus paying a water tax twice or thrice over. This ought not to be so, as water supplied to a town ought to be of such a quality that the poorest citizen may have pure water as well as those that can afford to buy spring water. If any reasonable way is reported by your present committee, this Board would urge that a trial be made, in however small a degree.

The sewerage question will undoubtedly be brought to the notice of voters. We wish again to remind all that the necessity is great for a change from our present system, now foul and dangerous. Our soil is fast becoming saturated with organic salts and waste from cesspools and sink drains, and the condition is fast becoming dangerous, if not so already. Although for several years we have been free in a large degree from those diseases that are propagated by filth, yet we must remember that having one condition to their development with us all the time, the others are liable to come to us any day, and we may have a violent outbreak of diphtheria or other filth disease.

CONTAGIOUS DISEASES FOR 1891.

Scarlet fever,	33
Diphtheria,	4

MORTALITY REPORT.

Population of Natick (by last census),	9,058
Whole number of deaths recorded on Town Clerk's books,	132
Number dying in other places and buried in Natick,	5
Number of deaths occurring in Natick,	127
Death rate per thousand,	14

In comparison with last year it will be seen that the showing is much more favorable, 164 having died in the year ending Dec. 31st, 1890, with a death rate of 18.1 per thousand.

REPORT OF THE CHIEF OF POLICE.

To the Board of Selectmen:

GENTLEMEN:—I herewith submit my report as Chief of Police for the year ending March 1, 1892. At the time of my appointment as Chief of Police the force consisted of five regular officers assigned as follows: At Center village John T. Donnelly and Bartholomew J. Healy, who go on duty at 6 P. M. and come off at 5 A. M. At South Natick Edward B. Dowd goes on duty at 4 P. M. and comes off at 3 A. M. Daniel Sheehan, special officer at South Natick, goes on at 7 P. M. Saturday nights and comes off at 1 midnight and is on all day Sunday. Dennis T. Sweeney goes on duty in the Center village at 12 M., comes off at 6 P. M. Then goes on in Felchville until 12 midnight. I go on in the Centre village at 7 A. M. and remain until 12 M. In the afternoon and night time I am where I can do the best work. Constable Henry H. Howard is not a paid officer, nevertheless he rendered much valuable assistance in preserving good order and helping to enforce the law. Gate tender, Michael J. Garvey, at Main street crossing and special officer, has rendered timely assistance to the night officers, especially on the night of breaking and entering Beals' clothing house and Newell Cooper's shirt factory.

The work of the Police for the year will be found in the following table:

WHOLE NUMBER OF COMPLAINTS.

Females,	25
Males,	308
Total,	333

CAUSE OF COMPLAINT.

Common Drunkard,	11
Drunkenness,	93
Non support,	7
Lewd speech,	1
Search warrants,	64
Assault and battery,	28
Nuisance warrants,	19
Setting fire,	2
Trespass,	3
Insulting language,	1
Cruelty to animals,	3
Disturbing the peace,	35
Fraud,	3
Embezzlement,	4
Larcency,	10
Assault on Officers,	3
Illegal keeping of liquor,	1
Illegal transportation of liquor,	1
Bastardy,	1
Common railer and brawler,	1
Stubborn child,	1
Idle and disorderly,	15
Fast driving,	1
Burglery,	3
Disorderly house,	1
Loafing at B. & A. station,	4
Vagrants,	6
Selling leased property,	1
Concealing mortgaged property,	2
Common night walker,	1
Fire Inquest,	2
Unlicensed dogs,	4
Refusing to assist an officer,	1

There have been nine cases of juveniles before the court; two girls and seven boys. The girls were sent to the State

Schools for girls at Lancaster. In the case of the boys one was sent to Concord Reformatory, two to Munson, the others paid a small fine or were put on probation and finally discharged. The night police have found 21 stores unfastened and made them secure or reported the same to the owners.

In closing I can do no less than thank the other officers for their unstinted willingness at all times to aid me in the performances of my duties for this is my first year as police officer.

Feeling that I have the hearty support and co-operation of the law-abiding citizens of this town I remain,

Yours respectfully,

SAMUEL CURRIER,
Chief of Police.

REMARKS.

The overdraw is partly the result of a misunderstanding. I had counted on \$500 of the sidewalk appropriation, but at the last minute found that it was not to be forthcoming, having been

used in the concrete department. In the course of the year I have re-built completely and thoroughly eleven bridges and culverts in various parts of the town. These I have covered with stone (instead of plank) and there is every reason to believe that they will all be durable and require little attention for years to come. I have also repaired five other culverts and they are now in very fair condition. On the line of new roads I have built Grant and Chestnut Streets. A serious drawback to the efficiency of this department must always continue while we are compelled to haul gravel so far. The time and money consumed in carting to the greater part of the town seems entirely disproportionate to the apparent results. Further it is thought that Natick has arrived at a period when we require harder roads to render them suitable and convenient for the heavier traffic on our streets.

In that belief I have made considerable use of broken stone, although there was no special appropriation for the stone crusher. Grant and Summer streets and South avenue are referred to as specimens of the work done by that process, and it is my opinion that while the cost at the start may be a trifle greater the increased usefulness, solidity and permanency under roads constructed in that manner are really cheaper in the end as well as better calculated to enhance the comfort of the citizens and the general appearance of the town. I would recommend a special grant for the use of the stone crusher and that we hereafter build our roads solid and of lasting material as much as we prudently can each year, I would also urge that the remaining culverts in town be thoroughly and substantially rebuilt as soon as possible.

Respectfully submitted,

WALTER BURKE,

Supt. of Streets.

REMARKS.

In presenting our annual report we are again obliged to report an overdraw of \$1905.87. By comparison with the figures of last year a difference of \$1365.88 is shown. In the items of expenditures the increase incurred over 1890 is as follows: For Insane, \$418.12, the cost for 1890 being \$2506.76, and for 1891 \$2924.88. For those settled and residing here the increase is \$413 90. and for those settled here but residing in other cities and towns. \$391.94.

The whole number of families having applied for and received aid during the year is 100, comprising 269 persons. Of these 55 families, consisting of 149 persons, have legal settlements and reside here, and 15 families, consisting of 40 persons, have settlements here, but reside in other cities and towns, while 23 families, consisting of 66 persons, reside here, but have settlements in other cities and towns. The other 14 persons are State poor.

To the credit of the citizens of this town be it said that they have always displayed a liberal spirit in providing for the wants of those who stand in need of assistance. It has often been said by those who are not acquainted with the true facts, that a great many receive aid who are not deserving thereof, but a careful perusal of the list on another page will show that the recipients consist chiefly of women and children, who are rendered helpless by the loss of kindred or health, or those who would naturally protect them in misfortune.

This Board made its annual visit to the Farm February 25, and took an inventory of the personal property. There is an increase in valuation to the amount of \$568.65. This is owing to the purchase of wood from Martha W. Bullard of Sherborn, upon which we realized a profit of \$361.75, which profit we have credited to the Farm.

Some few years ago the town erected at an expense of over \$100.00 a receptacle for sewerage and offal known as "The Dump," on a portion of the Farm; but for the last year or two the Board of Health, for reasons best known to themselves, have not compelled those engaged in the scavenger or cesspool cleaning business to carry their contents to The Dump. The Farm has suffered materially from the loss of this fertilizer, as is attested by the florid looks of its fields during the summer time. We have an article in the Town Warrant relating to this matter.

The present number of inmates at the Almshouse is 14. The introduction of the iron bedsteads and the addition of the blinds to the house have been of great benefit to the inmates, for

which they feel very thankful to the tax-payers of the town. Their health has been looked after very carefully and their wants in the medical line attended to by Dr. William Richards, the town physician, who is always ready to respond promptly to every call. Their other wants are kindly attended to by the kind-hearted matron, Mrs. Hayes. Mr. Hayes, the warden, exercises a careful supervision over the farm, he being a practical farmer, and, no doubt, gets as large a return as can be got from the Farm in its present condition.

Respectfully submitted,

JOHN ENGEL,	} Overseers of the Poor.
JOSIAH A. BEAN,	
PATRICK MAHAN.

REPORT OF SCHOOL COMMITTEE.

The town having passed a vote at the Annual Meeting instructing us to employ a Superintendent of Schools it became our duty to cast about for a suitable person to occupy that important position. Although we took no means of advertising our want a plentiful supply of candidates speedily presented themselves. At length, the unanimous choice of the Committee fell upon Mr. Isaac Freeman Hall. This gentleman came to us with 20 years experience as an educator eleven of which had been devoted to the duties of a Superintendent in Dedham and Leominster, both of which towns correspond closely in population and general characteristics with Natick. Further, he was fortified with the strongest recommendations from gentlemen of acknowledged character and reputation (some personally known by members of this Board) giving us assurance that we should make no mistake in selecting Mr. Hall.

So far, we have had no reason to regret our choice. On the contrary we have found him to be gentlemanly, considerate and intelligent in dealing with the varied interests of teacher, scholar, parent and committee. His long experience and general good sense afford a liberal fund of resources from which to draw in the necessary complications arising in the management of public schools. Our relations together have been uniformly pleasant and his suggestions thus far have met with the approval of the Board. While his term of service up to the present is too brief to allow a definitive judgment to be formed either for or against

the system we can safely say that Mr. Hall has in no respect failed to justify the favorable opinion entertained of him by educators in general and by the committee.

The Superintendent began his service with the fall term. In the interim from March to September the schools and matters connected were managed as usual by the committee.

The Wilson prize competition occurred May 13, in Concert Hall. The public interest in this annual friendly display of talent seems steadily to increase. Following are the names of the winners :

SPEAKING—1st Prize, Miss Lina Mason ; 2nd Prize, Miss Mabel L. Goodnow.

READING—1st Prize, Herbert W. Estabrook ; 2nd Prize, Miss Susie B. Gould.

Judges, Hon. Charles Q. Tirrell, W. A. Knowlton, Esq., and Miss M. A. Currier of Wellesley College.

The closing exercises of the Centre Grammar School, June 17, and of the South Natick Grammar School, June 19, were of the customary excellence. From the former a class of 61 and from the latter a class of 17 scholars graduated.

The High School finished a year of uncommon success with a fine programme Friday evening, June 26. Following are the names of graduates :

THREE YEARS' COURSE.

Fred C. Boardman,	Bertha Raymond Jones,
Delia Alice Boland,	Olive M. Lowe,

Repairs.

This has been a great year for repairs and general cleaning up of school buildings. The low state of the labor market with the liberal grant by the town combined to enable us to put in a great deal of work which has operated to the advantage of the town and of the pupils and teachers. South Natick school house has been newly shingled and painted; the outbuilding removed to a convenient and safe distance up the yard and, generally reconstructed and painted, has been firmly placed on a new and tight brick vault. The front fence has also been painted and an unsightly tree removed from the yard.

The house at Oak Grove has received a much needed painting, two coats being necessary on three sides.

By a strange omission the town water had never been introduced into this house, and great inconvenience to scholars and neighbors was the necessary consequence. An arrangement was made whereby the Water Department put the pipes through the ground and into the building at the unexpectedly small expense of about \$70.

Cochituate Street house received a coat of paint and the grounds immediately fronting the doors were concreted. This department also bore its share of the expense of concreting the

sidewalk on Pond Street near the school ground and on East Central Street in front of the High School lot.

The High School building has been painted on the outside (the fence also) and concrete walks laid on both sides of the structure to the rear. The outbuilding has also been re-constructed and improved. Inside, the High School rooms and hallways have been tinted in an artistic manner, the desks all taken up and (with 17 additional ones) have been re-set facing the north with a view to protecting the eyesight of the pupils from the strong light coming from the other directions.

These changes made necessary the re-location of the Master's desk and the signal wires and this, too, has been accomplished to the great satisfaction of all concerned.

The Grammar School-room at the Centre has also been tinted and the fence about the grounds somewhat repaired.

Improvements of minor importance have also been effected at Harvard Street, Walnut Hill and the North schools.

The heavier contracts in the above lists were all let out to the lowest bidder and the work in every instance was satisfactory to the Committee.

Generally speaking, our school property is now in very fair condition. The building on Pond street is evidently faulty for four schools and some change will have to be made there in the interest of the comfort and health of the occupants. The matter is now under advisement and when the subject is reached at the Town Meeting we shall be enabled to present some plan or plans of remedy.

Evening School.

We perceive some signs of a re-awakened interest in this department. From 25 to 40 pupils have been very constant in attendance during the twelve weeks of the term. We should judge that the work done has been creditable to the instructors and profitable to the pupils.

Other matters of detail will be found in the report of the Superintendent.

Respectfully submitted,

JAMES McMANUS,	}	School Committee.

Superintendent's Report.

To the School Committee of Natick:

I herewith submit the first annual report of the Superintendent of Schools, made after six months of service. I am moved at the outset to express my appreciation of the encouragement and support given by your board, of the cordial co-operation of the teachers, and of the courtesy and assistance of the citizens of Natick.

Most of the fall term was spent in a careful study of the condition of your schools. It was necessary to learn not only the name of each school but its chief characteristics, its excellencies and deficiencies, its difficulties and advantages. Little could be done by way of systematic supervision until I had become acquainted with the teachers and to some extent with the pupils.

No radical changes have therefore been made in organization, in the Courses of Study, or in methods of teaching, and I have no show of work in these directions to present. Some suggestions of changes and improvements undertaken and planned will be presented in the latter part of this report.

Statistics.

The whole number of children registered in all the schools during the past year has been 2806.

The number in school at this date, March 1, 1892, is 1735.

The whole number of different pupils in school during the year has been 1959.

The number over 15 years of age has been 229.

The number under 5 years of age has been 13.

The number between 8 and 14 years of age, 1025.

The average number this year has been 1698.

The average daily attendance has been 1592.

The rates of daily attendance has been 93.

The whole number registered (2806) is the sum total of pupils' names registered during the year. Many of these names are repeated on the school registers by different teachers as pupils pass from one room to another by transfer or promotion during the year. This number is sometimes given as the whole number of children attending school, but it is obviously too large because every pupil transferred from one school to another is counted twice.

The number, of different pupils in attendance during the year (1959) represents the largest true total of attendance, every pupil being counted once and no pupil but once.

This number with any increase likely to occur is the number for which the town must provide proper accommodations. The average number (1698) is 16 larger than it was last year, while the average daily attendance (1592) is 30 larger.

School Buildings, Repairs, Organization, Etc.

To accommodate 1959 school children (average attendance 1698) the town of Natick now has 12 school buildings with 45 different rooms. The pupils are instructed by 41 teachers and 5 assistants. Special instruction is given in all the schools in Drawing. The Music has been taught, during the last term, by the regular teachers under the direction of the Superintendent. The above facts show that the average number of pupils for each teacher is 43, (based on the number likely to attend) or 38 (based on the number in actual attendance.)

That this average is unusually large may be seen by referring to the school reports of other towns, yet it would be much higher if the smaller schools, of which we have three (see list of schools,) were not included in this estimate. The average number of pupils for each teacher in the primary schools is likely to be increased at the beginning of the spring term.

In general, our school-rooms are pleasant, well lighted,

conveniently furnished and of proper size, but the ventilation in some cases is very poor. In every room at the Centre the air is pure with a proper and equable temperature in the coldest weather. At the High School, South Natick, and Oak Grove it will be possible, I think, at slight expense to secure fairly good ventilation.

The school buildings on Pond and Harvard streets ought to receive immediate attention. At Pond street all the conditions for proper lighting and ventilation are wanting. Whenever the weather is cloudy half the children attending school in the two upper rooms of this building can not read print easily from text books resting on their desks. The projecting roof interferes seriously with the admission of light and throws cross shadows in some parts of the room. No parent can be blamed for refusing to allow his child to study in such a room. In the whole building there is no ventilation except such as may be secured by opening the windows, when some of the children must sit in a current either of cold or warm air, usually a succession of changes from one to the other.

Rooms into which we compel parents to send their children and in which we require the children to spend more time each day than they spend anywhere else ought to be safe places in respect of heat, air and light. The influence of our schools on the future health of our school children is not only directly manifest in headaches, physical and mental exhaustion, dullness and listlessness, but is likely to be indirectly manifest in later life. Slight physical ailments of the child hardly noticed at first are developed by the influence of vitiated air into serious and often fatal diseases.

Such extensive alterations and improvements are required at Pond street for lighting, heating, ventilation, drainage and general sanitation that we are warranted, I think, in calling the special attention of the town to this matter that they may take action concerning it at the annual town meeting.

The school-rooms at Harvard street are not properly heated in cold weather, and in neither room is there any system of ven-

tilation. I recommend that the second hand stoves now in use there be disposed of, that one or two new furnaces be set up in the basement, and that arrangements be made at the same time to secure a simple and practical system of ventilation. Reliable estimates warrant us in saying that the cost of all necessary improvements there will not exceed \$500.

EXPENDITURES—1891-2.

Teachers' pay roll,	\$19,995 80	
Care of houses,	1,827 03	
Fuel,	2,026 15	
	<hr/>	
Total for support of Public Schools,		\$23,848 98
Salary of Superintendent,	\$ 800 02

Insurance,	227 35	
	<hr/>	
		\$5,715 07
Total expenditures for support of day schools,		29,564 05

APPROPRIATIONS AND INCOME FOR DAY SCHOOLS.

For teachers, janitors, supplies, etc.,	\$27,000 00	
For Superintendent,	1,000 00	
For repairs and improvements,	2,000 00	
Received from Town of Wellesley, tuition,	180 00	
	<hr/>	
Total,		\$30,180 00
Balance on hand,		615 95
Expended for Evening school,	\$298 54	
Appropriation for Evening school,	300 00	
	<hr/>	
Balance on hand,		\$1 46

Total balance, returned, 617 41

An itemized account of these appropriations and expenditures will be found at the end of this report. In the summary given above I have divided the total into three parts :

1. Amount expended for support of Public Schools, including only wages of teachers, fuel and care of houses, \$23,848.98.

2. Amount expended for improvements, repairs, incidentals, books, supplies, etc., \$5,715.07.

3. Amount expended for support of Evening school, \$298.54.

This method of division is adopted generally by towns in this state and by the State Board of Education, in compiling its comparative tables of school expenses.

The last two items everywhere vary more or less from year to year, according to special needs, while the first item remains about the same. It cannot be reduced except by radical change in the organization of the schools or by reducing the salaries of teachers or janitors.

It is, therefore, generally made the basis of comparison between different towns in respect of money spent for educational purposes, and it may be of interest to our citizens in this connection to note a few facts collated from returns printed in the last report of the State Board of Education.

The cost per pupil for support of public schools in the towns adjoining Natick are as follows :

FRAMINGHAM.

Average membership, 1,630.

Amount appropriated for support of Public Schools, \$24,500.

Average cost per pupil, \$15.03.

SHERBORN.

Average membership, 124.

Amount appropriated for support of Public Schools, \$2,525.00.

Average cost per pupil, \$20.36.

DOVER.

Average membership, 93.

Amount appropriated for support of Public Schools, \$1,985.

Average cost per pupil, \$21.34.

WELLESLEY.

Average membership, 430.

Amount appropriated for support of Public Schools, \$11,500.00.

Average cost per pupil, \$26.74.

WESTON.

Average membership, 231.

Amount appropriated for support of Public Schools, \$6,100.00.

Average cost per pupil, \$26.41.

WAYLAND.

Average membership, 277.

Amount appropriated for support of Public Schools, \$5,200.00.

Average cost per pupil, \$18.77.

To sum up these facts in one sentence, the average cost per pupil for support of Public Schools last year in the six towns adjoining ours was \$21.44, while the cost per pupil this year in Natick is \$14.04; found by dividing \$24,848.98 by the average membership, 1,698.

It may be remarked, in passing, that the average cost per pupil for all school expenses in Natick, found by dividing \$29,564.05, the cost of the day schools, by 1698, is only \$17.42, \$4.02 less than the average for teachers, fuel and care of houses in the adjoining towns.

If we go further and compare Natick with some of the larger towns in the state, we find the cost for support of schools, in Marboro, \$15.21; in Milford, \$14.64; and in Brockton, \$14.50, and so on, against \$14.04 in this town.

Concerning the expenditures themselves, it may be interesting to note in this connection, also, that the average cost for all

the towns of the state, as given in the Secretary's last report, is \$18.20.

The repairs and improvements made this year have been important. The amount \$1,919.26 includes bills for painting four large schoolhouses, laying concrete walks at the High School and Pond street, new furniture for the Oak Grove and High Schools, shingling the South Natick schoolhouse and other important jobs.

Much credit is due the Chairman of the School Committee for his careful attention to these matters and his economical administration in this direction. We have paid all bills this year and have a balance to return to the town. There are few, if any, outstanding bills except two for school books where an exchange is being effected.

Two other facts should be noted.

1. Bills for supplies and repairs for the previous year, (1890-91) amounting to over \$800 have been paid this year.

2. The bill for fuel and care of houses has been, for various reasons, unusually large. The increase in this bill, however, is not altogether on account of the changes in heating and ventilation in the Centre School house for I find that by a judicious arrangement of the apparatus and the careful attention of the janitor we have been able to heat the Centre Building properly every day this winter and ventilate it thoroughly, changing the air in every room at least once in twenty minutes, at an expense of less than \$480, or \$40 per room since Sept. 1.

There are now probably 12 or 15 tons of coal in the basement of the Centre school.

The books and supplies on hand at the office when I took charge of the delivery of supplies amounted to about \$71.00. We have bought supplies and books since Sept. 1 in large quantities to secure favorable prices and have now at the supply room, paper, writing books, slates and text books amounting to about 231.00, all paid for.

On account of a change made last year in the law relating to the distribution of the State School Fund we receive nothing

this year, which makes our total school income some \$93 less than last year.

This (\$93) with the extra stock on hand (\$160) and the \$800 paid for last year's bills should be considered in reckoning how much has been saved this year in school expenses.

Administration and Work.

Since Sept. 1 most of the time not given to details of business connected with my office, has been spent in visiting schools. Some one of the schools being in session each school day continuously from 8 A. M. to 3.30 P. M., it is possible for the Superintendent to reach each school at least once in three or four weeks.

The visits made by the School Committee during the year number 147, 104 of which have been made by the Chairman. In voice the opinion of every teacher, I am sure, in saying that the visits of the Committee have been helpful and encouraging.

Children, parents, teachers and all are under great obligations to a School Board who are willing to give time and service to the difficult and often unappreciated task of caring for our educational interests.

The first purpose I have had in mind while visiting and inspecting the schools, has been to discover and introduce elements which would tend to unify the work and make it more practical. With good teachers much time is lost by diverse methods of teaching and training, useless repetition, a going over and over the same subjects in different ways, any one of which may be good alone, but all of which taken together produce mental confusion. A subject in Arithmetic or History taught once ought to be held in mind by the pupils for practical use, but not reviewed and studied over and over again till it becomes as dry and uninteresting as the dulllest page in the dictionary.

Knowledge which the pupils need to use every day should be taught thoroughly in an attractive manner and then reviewed by being used in the acquisition of new knowledge.

Steady progress is impossible in school work unless there be some unity of purpose among the teachers and that, kind of unity

which is secured by constant oversight, sympathetic criticism and intelligent direction. We have tried to improve the organization of the schools by teachers' meetings where the principles of good teaching were presented and discussed. The eighteen meetings held from week to week since Sept. 1st have been interesting, well attended and fruitful of results which appear already in improved methods.

The second purpose of wise supervision as I understand it is to broaden and strengthen the work of the Public Schools. People who labor in the midst of a busy, bustling, hustling world can hardly realize how surely the tendencies of school-room life are opposed to those of the world of affairs. The tendencies of the school-room may be no worse than the superficial and distracting tendencies of worldly life, but they are contrary the one to the other and if no attempt is made to reconcile them how can our schools be expected to fit boys and girls for the push and rush of business life. It is possible, I believe, for the school superintendent, standing as it were between the dull school-room and the busy world to introduce into all the schools under his charge, incidentally but continuously and persistently, by suggestion, conversation or examination, such vitalizing elements as will counteract the natural tendencies to dullness and routine.

My chief purpose in visiting the schools has not been to discover or expose petty faults, but to strengthen and elevate the tone of each school-room. I have tried to ascertain in a quiet way what attitude of mind the children sustained toward knowledge and ignorance, industry and indolence, books and culture in connection with the manifest results attained by their daily work: for I believe that the ethical atmosphere of the school-room has more to do with mental development than tasks assigned or lessons learned.

My fourth aim has been to criticize and improve in particular the character of the instruction; for while it is partly true that "the teacher makes the school," it is altogether true that good teaching makes a good school. In this matter, to avoid confusion and superficiality, I have directed the attention of the teachers to a few lines of work and to those which were decidedly

practical.

Writing.

Much attention is now given to this subject. Commendable progress has been made and uniformly good results are secured. Before long we intend to make an exhibit of work which will verify this assertion. An outline of the principles and methods of instruction in writing is in print and will soon be ready for distribution.

Reading

Is now taught thoroughly, but we need more reading matter, many different kinds of books; some for information, some for practice in oral expression and others for the cultivation of the reading habit. I intend to introduce, very soon, some plans of reading in connection with other studies which will enable the teachers to help their pupils to make a better use of the large number of interesting books to be found on the shelves of the Morse Institute.

Spelling.

Spelling—learning the forms of words—is taught carefully, the special aim being to teach the words of common life, and to make them so familiar to every pupil that he can re-produce them immediately in writing. Oral spelling—naming the parts of written words—has not been abolished, but made subservient to written spelling. In this branch of study we are using such methods of teaching as seem to lead most surely and directly to the formation of a correct habit of spelling. Such a habit, formed in early life, makes it easy for one to spell correctly the words he needs to use in communicating his thoughts to others. An outline of principles and methods presented at teachers' meetings in these two subjects (Reading and Spelling) has also been printed for the use of teachers.

Arithmetic.

This subject has been under consideration at several of the teachers' meetings, and an outline of the principles and methods in this branch of study is nearly ready for use.

Course of Study.

No course of study has been prepared because a good course of study ought to be adapted to the schools, and cannot be prepared till time has been taken to learn in detail all the special limitations of different classes and their peculiar needs and attainments.

The High School

as compared with other High Schools of its size, is in an excellent condition. The present course of study has been in operation long enough to settle two points, namely: The pupils of our High School can be properly fitted there for the best colleges and scientific schools, and a complete and thorough course of High School work is popular in Natick.

This school ought to be well sustained. It has been possible this year to do all the work prescribed without an increase of teaching force, but it will not be possible to keep the work at its present high standard, with an additional fourth year class, unless we employ one more teacher. I recommend that you ask for such an increase in the appropriation for teachers' salaries as will secure another competent teacher for the High School.

Evening School.

This school opened November 18th and has held 35 sessions of two hours each. Four teachers were employed, and though the impression is general throughout the State that Evening Schools are not accomplishing the purpose for which they were designed, the Evening School in Natick this year has been a success. Great interest was manifest, the pupils made commendable progress and all the results were satisfactory. The average attendance was 37 and the largest number present any one evening was 75.

On only one evening were there less than 21 present. The oldest pupil was 54 and the youngest 14. The average age of the pupils was 19. The school was under the direction of Mr. A. F. Lewis of the South Natick Grammar School, assisted by Miss Dora P. Cleveland, Miss Nellie G. Connors and Mrs. Henrietta F. Chase. Good progress has been made by most of the

pupils in Drawing this year. A few classes, for reasons which are not obvious, excel to a marked degree.

Training Class.

Since Sept. 15th I have conducted a Training Class for Teachers. The members of the class, 16 in number, are either graduates of the Natick High School or have covered a course of study equivalent to that prescribed therein. Each member of the class has taught in the schools three hours or more each school day and has attended the lessons given by the Superintendent in the Science and Art of Teaching. Four lessons have been given each week. An outline of several of the subjects studied and a plan of criticism for practice work will be found in this report. I commend to your attention the members of this training class most of whom give promise with larger experience of becoming successful and progressive teachers.

I would advise, in addition to the suggestions already made,

1. That more attention be given in our schools to the cultivation of the power of expression, to the development of the Language Faculty in order that our boys and girls may learn to talk and write more fluently and correctly and acquire more ability in the art of public speaking.

2. That more special promotions be made in the different grades, giving pupils a better opportunity to exhibit special ability and receive credit for the same.

Our system of public instruction merits the attention of every citizen. None are too poor or ignorant to help the cause along and none too wise or rich to be relieved from the duty of giving of their means and fostering care, each according to his ability. The Common School supported at public expense is worthy of increasing interest and generous support.

Respectfully submitted,

I. F. HALL, Supt. of Schools.

AUDITOR'S REPORT.

To the Tax Payers and Citizens of Natick:

The accounts of the various departments have been examined and audited.

A year ago the town voted to adopt the system of weekly payments of its employees. This has necessitated the attendance of the Auditor at the meetings of the Selectmen much more frequently than in former years.

The orders drawn by the Selectmen and by the Overseers of the Poor have been audited when drawn, and their accounts audited at the close of the current year. The bills and accounts of some other departments, such as the Water and Fire Departments have been audited monthly, with a final auditing at the close of the year. I have audited the account of the Town Clerk and find it correct and also vouchers for payment of the proper amount to the County Treasurer. The accounts of the Treasurer have been audited and I find them correct and that the cash and securities specified therein are held by him. The report of the Tax Collector has been audited and I find its relation to that of the Assessors to be correct, and that he holds vouchers for the payments of the specified amounts to the Town Treasurer.

The financial statement of the School Committee I find to be correct and to agree with the vouchers held by the Town Treasurer. The financial statement of the Superintendent of Streets I find to correspond with the vouchers held by the Selectmen and with the orders drawn by that Board.

The accounts in some of the departments are admirably kept, but in others there is still much to be desired. There is an imperative need for a uniform system of accounts so kept that the relation of the departments and accounts to each other and to the Town Treasurer may be readily ascertained at any time and errors quickly rectified. In view of the large amount of money at present necessary to carry on the business of the town, all accounts kept in the form of memoranda, which is always difficult and sometimes impossible to verify, should be discarded.

It gives me pleasure to state that the various officers of the town have exhibited the utmost willingness to aid me in making a thorough examination of their various accounts.

Respectfully submitted,

MILTON F. JONES, Auditor.

ANNUAL REPORT

OF THE

MORSE INSTITUTE

OF THE

TOWN OF NATICK.

FOR THE

YEAR ENDING FEBRUARY 28, 1892.

NATICK, MASS.

NATICK CITIZEN PRINT,

1892.

REPORT OF TRUSTEES OF MORSE INSTITUTE.

There has been no change in the management of the Institute during the year. For the conditions of the Library, additions during the year, circulation, etc., reference is made to in the report of the Librarian: and for the conditions of the Institute fund to the Treasurer's report, both of which are here-to appended.

LIBRARIAN'S REPORT.

To the Trustees of the Morse Institute:

GENTLEMEN:—I herewith present the nineteenth annual report of the Librarian; it is the fourth I have prepared.

The tables which have for the four years previous formed the principal part of the report, will be found as usual at its close. They contain statistics compared with those of the preceeding year.

There has been considerable increase in the use of the Library during the year. The circulation having been 26,933, the largest since 1882. This number does not include books taken from the circulating department to the reading-room. Books thus borrowed number 763, making this circulation 213 more than the previous year.

Thanks are due the editors of the three local papers for publishing the title list of new books as soon as they are ready for circulation. This affords nearly every citizen an opportunity of seeing what is added without coming to the Library.

The method adopted of purchasing books once a month is universally appreciated.

The demands of a public library are varied, and the growth should be symmetrical. In making lists for new books I have endeavored to consult so far as possible, the actual needs and wants of the patrons, and have received some valuable suggestions.

There has been a slight change in attendants during the year. Mabel Rice Smith, who has acceptably filled the position of occasional assistant for the past three years, resigned in November. Miss Clara Randall is now fitting to take the place thus vacated.

NEEDS OF THE LIBRARY.

The necessity of more shelving increases. Ten extra long shelves put up temporarily, have provided room for books added to History and Biography. There are two new cases of History and one of bound Magazines, for which there is no room provided.

It has been ten years since the printed catalogue was issued; a supplement containing additions since that publication is much needed, and would supply the increasing demand for a new catalogue. It is inconvenient to look through the catalogue and ten annual supplements to find a desired book.

The card catalogue needs making over. Many of the cards are missing, and nine-tenths badly worn or sailed.

The benefit of the Library could be greatly increased by establishing delivery stations in the suburbs of the town, thus affording to their residents privileges in a measure equal to those enjoyed by persons living at a convenient distance from the Library. One at Felchville, West Natick, Southville and South Natick would be sufficient at present.

A list of persons and institutions to whom we are indebted for gifts is appended to this report.

The Librarian would sincerely thank the Trustees for their prompt and kindly consideration.

Respectfully submitted,

NELLIE L. FOX,

Librarian.

Annual Town Meeting.

MARCH 21st., 1892.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, SS.

To any Constable of the Town of Natick, in said County,

GREETING :

In the name of the Commonwealth of Massachusetts you are hereby required to notify the qualified voters of said Town of Natick to assemble at the Town Hall, Clark's Block,

MONDAY, MARCH 21st, 1892, AT 6.30 A. M.

then and there to act on the following articles :

ARTICLE I. To choose by ballot a Moderator to preside in said Meeting.

ART. 2. To choose by the Australian System of balloting the following officers: One Town Clerk, one Town Treasurer, three Selectmen, three members of a Board of Health, one Auditor and six Constables, all for 1 year; also three Assessors of Taxes, one for 3 years, one for 2 years and one for 1 year; also one Overseer of the Poor, one

Water Commissioner and two members of the School Committee, all for 3 years; also one member of the School Committee for 2 years to fill an unexpired term of Dr. E. W. Hill, resigned; also to answer by the said Australian System of balloting the following question: "Shall Licenses for the Sale of Intoxicating Liquors be Granted in this Town?"

For the purposes specified in this Article the poll will be opened immediately after the election of a Moderator and will remain open continuously till 4.30 P. M., when it will be closed, unless the meeting then assembled shall otherwise determine,

ART. 3. To see how much money the town will grant for paying interest and existing liabilities; for roads, bridges and culverts; for sidewalks and crosswalks; for assisting and maintaining the poor; for schools, school supplies and furniture and repairing school houses; for evening schools; for the fire department; for police and watchmen; for support of the Morse Institute; for collection and abatement of taxes; for paying town officers; for paying military aid and assisting poor soldiers, sailors, and their families; for decorating soldiers' graves; for lighting streets; for repairing and improving town property; for rent of town hall and office room for town officers; for suppressing the illegal sale of intoxicating liquor; for necessary town uses.

ART. 4. To see if the town will authorize its Treasurer, with the approval of the Selectmen, to borrow money, temporarily, in anticipation of the taxes for 1892—said money to be payable out of the taxes for said year—and, if so, in what manner and how much?

ART. 5. To see how the town will have its taxes for 1892 collected, choose a Collector of Taxes and fix his compensation.

ART. 6. To see if the town will authorize its Tax Collector for 1892 to use all means for collecting the taxes of said year which are delegated to Town Treasurers when appointed to collect the taxes of a town.

ART. 7. To hear and act on the report of the Committee on Sewerage appointed at the last Annual Meeting and the recommendations contained therein, and to see if the town will accept and adopt said report with said recommendations or any of them, appoint a Committee to carry said recommendations or any of them into effect, and appropriate money sufficient for said last named purpose or otherwise act thereon.

ART. 8. To see if the town will choose a Committee to examine, value and list the tax titles held by the town and vote to authorize the Treasurer to quitclaim to parties interested in any of the estates so held for taxes who may desire to redeem the same and grant money sufficient to carry out the purpose of this article.

ART. 9. To see what sum of money the town will appropriate to complete the work on West Central street under the order of the County Commissioners, or otherwise act thereon. *7 English town held, made*

ART. 10. To see what sum of money the town will appropriate for abolishing grade crossings on the Boston & Albany Railroad, or otherwise act thereon.

ART. 11. To see what sum of money the town will grant for the construction of sidewalks, or otherwise act thereon.

ART. 12. To see if the town will accept of the relocation of Union street over land of Abbie C. May, as filed by the Selectmen.

ART. 13. To see if the town will accept of the re-loc-

tion of that part of Union street from Woodland street to land of James Howard, as filed by the Selectmen.

ART. 14. To see if the town will accept Mulligan street; Waban street; Maple place; as the same have been laid out and filed by the Selectmen.

ART. 15. To see if the town will accept the extension of High street as laid out and filed by the Road Commissioners in 1888, and grant money to pay the damages awarded.

ART. 16. To see if the town will accept Carver Hill lane as laid out and filed by the Selectmen and with or without an award of damages.

ART. 17. To see if the town will accept Washburn street as laid out and filed by the Selectmen.

ART. 18. To see if the town will accept a private way from Union street to land of George G. Morse, A. C. Allen and D. M. Willis, as laid out and filed by the Selectmen.

ART. 19. To see if the town will accept the re-location of Mill street, as laid out and filed by the Selectmen.

ART. 20. To see if the town will accept Jameson street as laid out and filed by the Road Commissioners in 1889.

ART. 21. To see what sum of money the town will grant to finish grading and repairing of Curve street or otherwise act thereon.

ART. 22. To see if the town will re-build the culvert on Oak street to properly convey the waters of Coos brook into Jennings' pond, so called, or take any action thereon.

ART. 23. To see if the town will vote to have a new valuation of property in Natick, and designate by whom and when it shall be made and grant money to pay for same.

ART. 24. To see if the town will instruct its Assessors

to cause to be issued printed pamphlets of the assessed valuation of all the real estate in town and the owners thereof, and grant money to pay for same.

ART. 25. To see if the town will accept the bequest of the late John B. Walcott consisting of 40 shares of the corporate stock of the Chicago, Burlington & Quincy Railroad for the benefit of the poor of the town of Natick.

ART. 26. To see if the town will vote to clean out Broad's brook in South Natick, and grant money to pay for same.

ART. 27. To see if the town will instruct the Board of Health to compel those engaged in the cesspool cleaning business to carry their contents to the dump on the Town Farm.

ART. 28. To see if the town will authorize the Selectmen to settle the claim of Moses E. Frost for damages by reason of changing the grade of West Central street in front of his premises.

ART. 29. To choose by ballot one Sinking Fund Commissioner for 3 years.

ART. 30. To see if the town will cause the Pond street school house to be enlarged, remodelled or altered in such way as to improve its sanitary condition, and grant money to pay for same.

ART. 31. To see if the town will cause improved heating apparatus to be provided for the Harvard street school and grant money to pay for same.

ART. 32. To see what compensation the town will vote to grant to the members of the School Committee for services during the past year.

ART. 33. To see if the town will continue the office of

Superintendent of Schools and grant money to pay his salary, or vote to abolish said office.

ART. 34. To see if the town will vote to authorize the Water Commissioners to lay pipes to the house of Dennis Moran on Worcester street.

ART. 35. To see if the town will authorize the Water Commissioners to lay pipe in certain cases where, in their judgment, it is for the interest of the town so to do, and to authorize the Treasurer to borrow not exceeding \$2000 for that purpose.

ART. 36. To see if the town will vote to pay for Concert Hall one night in this year and grant the fire department the free use of said hall for that night.

ART. 37. To see how much money the town will grant for keeping wound and in repair the clocks on the Congregational church in Natick and on the Unitarian church in South Natick.

ART. 38. To see if the town will accept the provisions of sections 64, 65, 66, 67 and 68 of Chapter 27 of the Public Statutes, the same having reference to the manner of electing Selectmen.

ART. 39. To see if the town will authorize the Selectmen, by themselves or through legal counsel, to defend the Town of Natick in suits brought against said town.

ART. 40. To see if the town will accept the list of Jurors as revised and posted by the Selectmen.

ART. 41. To see how much money the town will appropriate to pay Mr. Ferdinand Schaltenbrand for the injuries received by him from the falling of a bank of earth upon him on Union street in the summer of 1890 and in settlement of his suit now pending against the town.

ART. 42. To see how much money, if any, the town will grant for the purpose of digging test wells or filtering galleries near the pumping station or otherwise act thereon.

ART. 43. To see if the town will vote to discontinue the printing of the catalogue of the Morse Institute in the town report.

ART. 44. To see if the town will vote to sell the town Hearses.

ART. 45. To see if the town will appropriate money sufficient to purchase two safes for the use of the town.

ART. 46. To see if the town will reimburse the collector of taxes, for expense paid for the imprisonment of James E. Minon in the East Cambridge Jail for non-payment of taxes for the year 1887.

ART. 47. To see if the town will choose a Committee to see if anything can be done to influence desirable capital and business to locate in town.

ART. 48. To act on the reports of the various town officers as printed and to hear and act on the reports of all Committees chosen of Town affairs and to choose all necessary committees for the ensuing year; also to choose fence viewers and field drivers.

ART. 49. To see if the town will authorize the Selectmen to lease for a term of years the Old High School House Lot, so-called, on East Central Street.

ART. 50. To see if the town will authorize the Selectmen to settle the claim of Doctor P. R. Manuel against the town for damage on the highway and appropriate money for the same.

And you are directed to serve this Warrant by posting up true and attested copies hereof at the Post-office, South

Natick and at the street entrance to Town Hall, Natick, seven days at least before said March 21, 1892; also by causing like true and attested copies of said Warrant to be published in the local newspapers of said Natick once before said day of meeting.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk on or before the day appointed for said meeting.

Given under our hands this tenth day of March, A. D., 1892.

CHARLES J. FOSKETT,	} Selectmen of Natick.
JOHN W. SULLIVAN,	
FRANK B. TILTON.	

A true copy,—Attest :

Constable of Natick.
